<https://frozen-spire-07685.herokuapp.com/> | <https://github.com/jt0398/Worktopia>

- Worktopia aims to solve the perennial problem of supply and demand in the workspace domain.
- React, MySQL, Sequelize, Node.js, Express, Stripe, AWS S3

Robin Hood | API Developer

<https://limitless-bayou-30453.herokuapp.com/> | <https://github.com/jt0398/food-bank/>

- A food banking solution conceived as a marketplace application with the goal of reducing food wastage in Canada and helping the needy.
- Node.js, Express, Express-Handlebars, MySQL, Sequelize

Covid-19 Dashboard | AWS Developer

<https://jt0398.github.io/Covid-Dashboard/> | <https://github.com/jt0398/Covid-Dashboard>

- Covid dashboard pulls data from The COVID Tracking Project API and displays it in comprehensive graphs.
- React, PostgreSQL, Node.js, Docker, AWS ECS/ECR, AWS CodePipeline, RabbitMQ

EXPERIENCE

Xerox Americas **Application Developer**

09/2012 – Present
Mississauga, ON

- Develops custom modules for data capture and imaging applications such as XPIM and Abbyy FlexiCapture 12 using C# to meet client business requirements and improve OCR capabilities.
- Implemented an auto verify feature in imaging workflow which resulted in savings in operational labour of 15K.
- Designed and developed a solution that saved 250K in licensing costs by only sending specific pages to OCR instead of the full Tif document.
- Assists Support Team in troubleshooting and diagnosing production system issues to help them achieve 100% SLA performance month to month.
- Successfully managed system upgrade involving 6 server builds, 20 workstations, and 3 application installations and QA in three months to meet corporate and security compliance.
- Given 1st Half 2015 Award as a recognition for superior level of achievement and contribution to Xerox.

William Osler Health Center **.Net/SharePoint Developer**

05/2010 – 09/2012
Brampton, ON

- Created Patient Flow System Indicator and ED Admit dashboards using ASP.Net and Telerik Tools to help monitor how many patients are waiting in different clinical areas or how many beds are available.
- Developed a Make a Case and Business Case InfoPath forms with workflow to improve the processing and approval of Business Cases.
- Led a team of three developers in developing thirteen custom SharePoint solutions in three months.
- Initiated proper process in implementing SharePoint including best practice and standards in the organization.

EDUCATION

University of Toronto, Mississauga, ON
Full-Stack Bootcamp Certificate

Humber College of Applied Arts and Technology, Etobicoke, ON
Internet Management Certificate

George Brown College, Toronto, ON
Computer Programming Diploma - Graduated with honours
